

# Athens-Clarke County Fire & Emergency Services

## 4.1 Summary of Step 4 Inspections

In the plan review process, Step 4 involves inspections conducted by the Athens-Clarke County Fire Marshal office to ensure compliance with current building codes, specifically for projects with sprinkler systems. There are two inspections needed at this step.

- Hydrostatic Test
- 80% / Coverup Sprinkler Inspection

To schedule this inspection, individuals are directed to call 706-613-3365. While efforts are made to provide prompt service, staffing limitations might result in inspections taking up to 5 business days to be carried out. A checklist is provided to assist in preparing for this inspection, detailing what aspects will be assessed.
