---

# COLLEGE AVENUE

# HOYT STREET

---

# FOURTH STREET AT HOWARD B STRoud ELEMENTARY SCHOOL

---

# FOURTH STREET AT STRICKLAND AVENUE

---

# ART SHELTERS

---

# WHY IS THIS PROJECT IMPORTANT

## Goal Area 1 – Good Neighbors

- **Section D - Drive community transformation with a focus on creating spaces that are respectful and welcoming:** Many users of our transit stops are not covered. This makes it difficult for users to use the transit system in inclement weather. Providing improvements to these existing bus stops would provide a respectful and welcoming environment to keep users dry.
- **Section E - Support & promote healthy lifestyle:** moving, eating, forming healthy relationships, physical and psychological care: Many users of our transit stops are not covered. This makes it difficult for users to use the transit system in inclement weather. Providing improvements to these existing bus stops would provide a respectful and welcoming environment to keep users dry.

## Goal Area 5 – Safely Move Around Athens

- **Section E - Enhance safety for all modes of transportation:** Many users of our transit stops are not covered. This makes it difficult for users to use the transit system in inclement weather. Providing improvements to these existing bus stops would provide a respectful and welcoming environment to keep users dry

## Goal Area 6 – Built and Natural Infrastructure

- **Section B - Ensures equitable access to infrastructure to enhance safety and identity:** Many users of our transit stops are not covered. This makes it difficult for users to use the transit system in inclement weather. Providing improvements to these existing bus stops would provide a respectful and welcoming environment to keep users dry.
