

Athens-Clarke County Public Utilities Department

2025 Capital Improvements Element

Project
3-315

Project Name

Manage Biosolids &
Residuals

Project Category

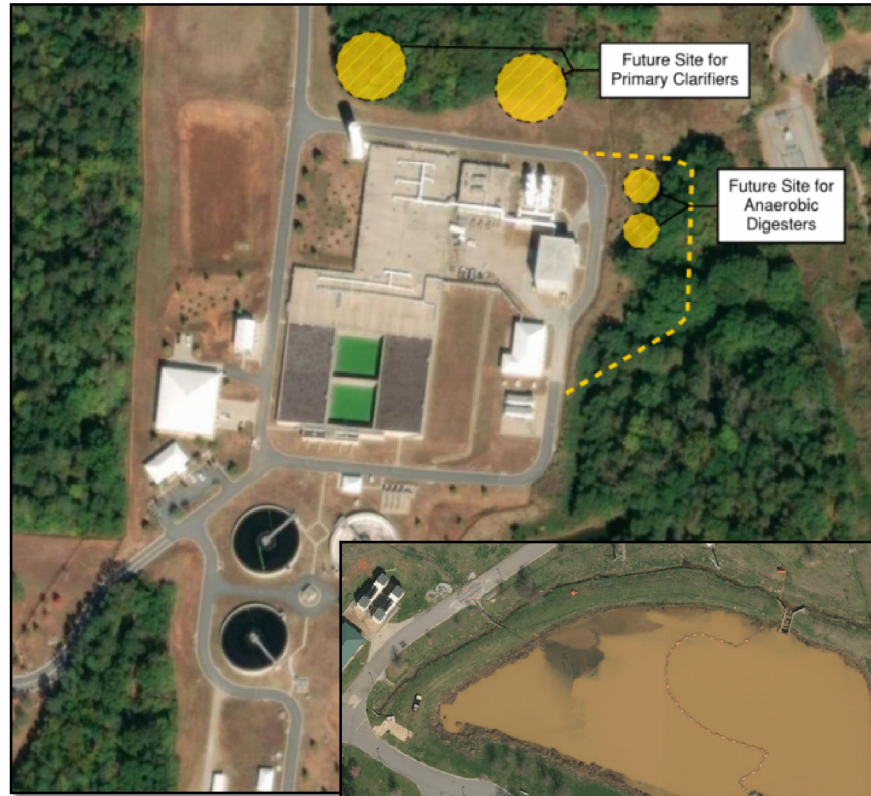

Rehabilitation and
Replacement

Project Cost

\$50,700,000

Key Elements

1. Primary removal of solids
2. Anaerobic digesters and associated treatment processes.
3. Maintenance of existing biosolids handling facilities.

Project Description

Construct solids handling facilities to assist in the reduction of volume and mass of biosolids. Utilize the latest technology to accomplish beneficial reuse of biosolids. Maintain existing biosolids handling facilities, which includes those found at North Oconee WRF, Middle Oconee WRF, Cedar Creek WRF, and J.G. Beacham WTP.
