---

**HISTORY:**

1. On October 29, 2025, Transportation & Public Works (TPW) received a work request from a resident to evaluate on-street parking on North Pope Street.
2. On November 12, 2025, TPW staff completed a field review of North Pope Street. It was noted that emergency vehicles would not be able to pass between two vehicles parked directly across from one another.

---

**FACTS & ISSUES:**

1. North Pope Street is a two-lane residential roadway with a width of 20 feet.
2. Reese Pope Park is located on the east side of North Pope Street at the corner of Reese Street. The east side of North Pope Street has sidewalk along the property line of Reese Pope Park.

3. The west side of North Pope Street has limited Right of Way with a vertical hill that makes exiting a vehicle from passenger side impossible.
4. Reese Pope Park hosts the “Really Really Free Market” once a month.
5. Due to the width of North Pope Street, safe access for emergency vehicles and larger service vehicles would be impeded if vehicles are parked on both sides of the street.
6. TPW staff recommends the establishment of a no-parking zone on the west side of North Pope Street, from its intersection with W Broad Street to its intersection with Reese Street, for 395 feet, to improve accessibility, as shown in **Attachment #1**.
7. This recommendation supports the following ACCGov Strategic Plan Goal & Strategy:
  - Goal Area 5: Safely Move Around Athens
    - Initiative 5.B.1: Supports Vision Zero by maintaining through access for emergency services on Athens-Clarke County roadways.

---
