

NOTE: correct sp. of "awareness", delete "and" and add comma. 1. Create a process for promoting community awareness, involvement, and development in land use issues.

NOTE: add "and" on last line. 2. Identify community planning districts to increase involvement in the planning and implementation of improvements at the residential, mixed-use, and commercial level.

NOTE: add "and private" on 1st line. 3. Involve public and private sector entities in the community planning district process

Justification:

Adding various public sector and private sector entities agencies to statement B. is more inclusive. We need a process for community involvement in all decisions relating to government decisions - beyond land use

Commercial "neighborhoods" and centers are important to the prosperity of the Community as well. We would like to move beyond the "neighborhood".

The word "citizen" has a very specific meaning to those with green cards and the 'undocumented' group. We've replaced it with "community" or "population".
