The ACCPD Summer Youth Camp Fund was established to support the purchase of operational supplies and programming costs for the Police Summer Youth Camp. This camp exists to build positive relationships between police and youth in the Athens-Clarke County communities and to make a contribution to the effort of preventing criminal behavior including gang activity while also instilling our community's youth with life skills through lessons on character building, anger management, and safety. Donations to this Fund will address operational expenses of the camp such as food, t-shirts, transportation, marketing, miscellaneous supplies, and other needs identified by the organizers of the Police Summer Youth Camp.

Administration:

President/CEO

Thank you for your support!
