About this Report

As part of its participation in The National Citizen Survey™, Athens-Clarke County conducted a mailed survey of 1,800 residents. Surveys were mailed to randomly selected households in mid-April 2018 and data were collected through early June. After the official data collection period was underway (see the report, *The National Citizen Survey: Community Livability Report, Athens-Clarke County, GA, 2018*), the County made available a web-based survey to its residents through a link on the County's website. Visitors to the site were able to complete the survey during late May and early June and 184 surveys were received.

This report contains the results of this administration of the web-based survey that have not been weighted to current population estimates of Athens-Clarke County.

Complete Survey Responses

The following pages contain a complete set of responses to each question on the survey, excluding the “don’t know” responses. The percent of respondents giving a particular response is shown followed by the number of respondents (denoted with “N=”).
