

## List Your Athens-Clarke County Property as a Film Location

If you would like your home, business, or property considered for filming, please upload details and digital photos in the Submit Your Location form linked at [athensgafilmoffice.com](http://athensgafilmoffice.com). **Locations must be located within Athens-Clarke County.**

Locations in other counties can be submitted through the state's locations website.

The Athens Film Office will review your photos and, if approved, your property will be added to our online locations database. This database is publicly viewable through the [Athens Local Locations Database](#) (via [athensgafilmoffice.com](http://athensgafilmoffice.com)), the [Georgia locations database](#), and the international [LocationsHub](#) database.

This database is for shooting locations only. If you wish to market your property for lodging, please register in the Athens Crew & Support Services Directory ([athensgafilmoffice.com](http://athensgafilmoffice.com)) as a SUPPORT SERVICE and list your property under PRIVATE ACCOMMODATIONS. There is no fee to register. You must provide links to AirBnB, VRBO, or a similar site where additional photos of the property can be seen. The Crew & Support Services Directory does not serve as a photo library.

### **Location Submission Guidelines (from the Georgia Film, Music & Digital Entertainment Office)**

Submitted locations will not be accepted if they do not meet the guidelines below:

- Provide a good photo overview of your property: exterior, interior, from the street. Interior shots must be included, or a note included in the “usage restriction” field stating interior filming is not allowed.
- Concentrate on unique features and rooms of the property (not the restroom, pantry, etc.).
- Include photos of the property assets in your description (pool, barn, woods, etc.).
- Shoot wide shots and from multiple angles.
- Professional photos are not required, but dark, old, or poorly focused photos will not be accepted, nor will those that are too small or low-resolution.
- Make sure images are properly rotated before submission.
- Do not include photos taken in inclement weather (snow, fog, rain, etc.).
- Staged photos highlighting people, pets, or objects are not accepted.
- “Glamour” shots are not needed - photograph your property as it is normally.
- Do not submit video clips, screen captures, or brochures.
- Properties submitted by location services companies or agents will not be accepted.
- You must be the actual owner of the property or have the owner’s permission to lease it for production.
- Properties currently for sale usually will not be accepted. Contact the Athens Film Office for details.
- If drastically remodeling, wait until work is complete before submitting photos.
- Describe your property: Write a descriptive title (“1910 Victorian Home” vs. “Smith Home”) and add details – square footage, architectural style, year built, number of bedrooms, special features.
- If particular types or genres of film/TV content, budget levels, or student films are not of interest, please note these restrictions in the “Usage Restriction” field.
- 10–20 photos are ideal; beyond 20 is generally too many. We reserve the right to select the best group among the submitted photos and delete those that are redundant or of poor quality.

### **Required Photo Sizes**

- 150 dpi or higher. Low-resolution (small file size) photos will not be accepted
- Recommended file size is between 1–3 MB per photo (maximum file size: 10MB)
- JPEG compression = 12 good quality
- 1680 X 1054 resolution (or higher) for large size web browsing
- Physical photo size: 8.5" X 11"

Once photos are ready, submit your site through the Location Submission Form at [athensgafilmoffice.com](http://athensgafilmoffice.com).
